Control Products Encourages Commitment TO CFSP Certification

Minneapolis, Minnesota – August 6, 2004 Control Products, Inc., a trusted leader in electronic control technology and NAFEM data protocol solutions for the food service equipment industry, is pleased to announce that several members of its management team have become Certified Food Service Professionals (CFSP). Each CFSP team member is recognized as a Food Service consultant equipped to solve marketplace issues and business challenges facing industry professionals today.

“Control Products is dedicated to providing advanced technology and superior products to the Food Service Equipment industry,” states Chris Berghoff, President of Control Products. “We are also committed to partnering with our clients to resolve the business challenges they face. Part of that commitment is the continuing education and professional development of our personnel to provide the leadership and expertise that is key to our business partner’s success. CFSP certification is part of this program.”

Control Products CFSP Certified Personnel (L to R): Jim Helgerson Business Development Manager, Chris Berghoff President of Control Products, Paul Carlson Vice President of Operations and Greg Colvin National Sales Manager. Absent from the photograph is Jerry Brown Director, Food Service Industry. This team has over 100 years of combined experience serving the Food Service Equipment industry.

The CFSP program is administered by the North American Association of Food Equipment Manufacturers (NAFEM) to raise professional standards through continuing education. Requirements for earning a CFSP designation include successful completion of a written exam, documented experience serving the Food Service industry, participation in continuing education programs and demonstrated leadership in the Food Service community and a variety of related activities.
